About

Product Designer with 4+ years of experience designing scalable B2B and consumer products, focused on solving complex problems through clear thinking, strong UX fundamentals, and thoughtful system design.

Experience

Freshworks | Senior Product Designer, CX

September 2022 — Present

- Introduced **Omni channel business hours** management across email, chat, voice, and messaging channels, simplifying global admin configuration and improving operational consistency for distributed support teams.
- Defined **Ultra-granular SLAs configurable down to 30 seconds**, enabling real-time response commitments, sharper agent prioritization, and faster resolution in high-velocity support environments.
- Initiated and led **Quick automations for high-intensity real-time channels**, allowing rapid routing and action execution that reduced agent effort during peak traffic periods.
- Established scalable **Automation workflows** to extend and manage reply timelines across all channels, easing agent workload, reducing manual interventions, and improving overall helpdesk efficiency.
- Led the end-to-end rollout of **Freddy AI** across CX products by designing admin experiences, onboarding flows, and 5+ Copilot features such as **real-time language translation**, **proactive quality coaching**, and **context-aware reply suggestions**, improving agent efficiency and feature adoption.
- Crafted a unified design experience for **Freddy Insights**, a conversational AI platform that delivers actionable insights to administrators, grounded in extensive user research and competitive analysis.
- Enhanced the **Onboarding experience** across all CX products by streamlining processes and collaborating with the Product-Led Growth team, resulting in a 45% reduction in the drop-off rate within one month.
- Managed, and implemented the **Freddy and Freshworks Design Systems** for AI and CX products, ensuring scalability, consistency, and ease of implementation across the company.

Pickyourtrail | Product Designer

Nov 2021 — Aug 2022

- Ideated and resolved complex user challenges within the **Pickyourtrail app**, enhancing both pre-booking and post-booking experiences.
- Led the design and development of a stealth **corporate travel app** tailored for business needs, with early adoption by companies like Chargebee and Rocketlane.
- Revamped the native **internal CRM tool, Plato**, improving usability for travel and sales consultants.

Core Skills

User-centered Design • Research • Ideation • Heuristic Evaluation • Wireframing • Information Architecture • Interaction Design • Usability Testing • Rapid Prototyping • Design Systems • User Interviews

Education

SSN College of Engineering

B.E (EEE)

2017 — 2021 | Grade - 7.8
